PREAMBLE

In terms of Section 96 of the Local Government: Municipal Systems Act, (Act 32 of 2000) a Municipality shall-

- (a) collect all money due and payable to it, subject to the provisions of said Act and any other applicable legislation and By-laws; and
- (b) for this purpose, implement and maintain a credit control and debt collection system which is not in conflict with its Rates and Tariffs policies and which complies with the provisions of said Act.
- (c) In order to give effect to the afore going provisions of said Act, the Council of the Stellenbosch Municipality has adopted a policy relating to credit control and debt collection as set out hereinafter.

Formatted: Font: 11 pt, Bold

Formatted: Font: 11 pt

1. PRINCIPLES

This Policy supports the following principles:

- (a) Human dignity must be upheld at all times.
- (b) This Policy must be implemented with equity, fairness and consistency.
- (c) Endeavours shall be focused such that data related to debtors and accounts are correct at all times...
- (d) The implementation of this Policy shall be based on sound business principles, which may include credit worthiness checks and assessments of the credit risks involved.
- New services will only be provided if supported by the relevant service contract(s) and payment of a consumer deposit.
- (f) Interest on overdue accounts will be charged at rates approved by Council from time to time, and will be levied on accounts outstanding after the relevant due dates thereof. For the purposes of calculation, a portion of a month will be deemed to constitute a full month..
- (g) Deposits will be utilised to proactively mitigate the potential of unnecessary credit risk exposure to Council.
- An administration fee and/or collection fee will be charged on overdue accounts, according to Council's approved tariffs and the By-laws of Stellenbosch Municipality (WC024)._Such fees will not apply to the accounts of registered indigent consumers.
- (i) The rates components on overdue accounts may be processed in terms of Sections 28 & 29 of the Local Government: Municipal Property Rates Act (Act 6 of 2004) (MPRA) and as described in the Rates Policy of Stellenbosch Municipality.

2. MUNICIPAL ACCOUNTS and ADDITIONAL MECHANISMS.

2.1 Notices and Demands

The Owner's/Debtor's/Consumer's attention is drawn to the note on the municipal account, which states that the supply of services will be discontinued/restricted without further notice if the accounts are not settled in full. This serves as a warning to a defaulting owner/debtor/consumer that services will be discontinued/_restricted upon defaulting on payments.

Notices, e-mails, cell phone text messages (SMS) or any available informative actions will however be issued to account holders as a first attempt (first notice) immediately after the due date as a means to recover debt and to remind consumers/debtors/owners of their obligation to pay for services.

The aim of such reminders is to get co-operation to settle accounts without the necessity to employ more drastic steps and to offer the opportunity to make arrangements to pay off such debt where the financial position of a consumer is such that relief is possible as per criteria in the Municipality's Rates or Indigent Policies.

Failure to respond to the first notice as alluded to above will result in the disconnection and/or restriction of services and a final demand being issued where applicable. Failure to respond to a final demand and in the event of arrears not being settled within the period stipulated in the

final demand, or an arrangement not being concluded, legal action may be instituted (with the rights reserved, notwithstanding the fact that services Municipality's disconnected/restricted or not) to recover the full outstanding debt. In this regard the municipality may consolidate any separate accounts of a debtor, credit a payment by a debtor against any account of that debtor and implement any of the measures provided for in this policy or the Credit Control and Debt Collection Bylaw in relation to any arrears of any of the accounts of such a debtor. In the case of housing rental contracts the Municipality may consider procedures for eviction or right sizing.

2.2 **Additional Mechanisms**

2.2.1 Electricity Services:

In the event of an owner/debtor/consumer other than a registered Indigent consumer regulated by Stellenbosch Municipality's Indigent Policy, failing to pay for electrical services due and payable, and in the event of such consumer having been placed on the disconnection list 3 times within a twelve (12) month period prior to such event, then Stellenbosch Municipality will have the right to install pre-paid electricity meters in a bid to limit credit risk. As an alternative, tThe municipality may also consider upward adjustment of the relevant consumer deposit,

2.2.2 Water Services:

The Stellenbosch municipality may in the event of an owner/debtor/consumer exhibiting a trend of non-payment of accounts during a twelve (12) month period prior to a non-payment event (i.e. 3 times or more non-payment events) consider the installation of water demand management devices in a bid to limit credit risk. As an alternative, tThe municipality may also consider upward adjustment of the relevant consumer deposit.

2.2.3 Rental Services and Loan instalments:

Actions against defaulters are regulated to a degree by the contracts involved.

All contracts must at minimum and where appropriate, include the following criteria/requirements:

- Due date for payments.
- (ii) Applicable procedures upon the defaulting of payments.
- (iii) Handover procedures.
- (iv) Eviction or right sizing actions.

3. ARRANGEMENTS

Should account holders/owners/debtors/consumers —wish to make arrangements to pay off accounts in arrears, the following guidelines shall apply:

- (a) The main aim of arrangements should be to ensure that current accounts (which may include penalties/interest and/or any admin fees) are at least paid in full, before entering into acceptable arrangements to pay off arrears,
- (b) Care must be taken to ensure that all reasonable financial and social assistance, as provided for in this Policy, is rendered to assist owners/debtors/consumers before drastic action is taken to recover debt e.g. subsidies for Free Basic Services and rebates on property tax,
- (c) All arrangements must be accepted in writing and the debtor must be provided with a copy of it,
- (d) Arrangements must be entered into that are both affordable to the consumer and protect the Municipality's interest,
- Arrangements should be final and debtors will not be allowed to re-arrange debt repayments. The Municipality may for a meritorious case, upon presentation of proof of current difficulties, consider to delay the receipt of the arranged instalment. This delay may not exceed 3 months.
- It is of vital importance to ensure that the settlement of current accounts (which may include penalties/interest and/or any admin fees), together with the debt repayment instalment, is seen as the minimum requirement for any agreement.
- Arrangements must be compiled in a format that facilitates legal action, upon breach of contract. Written arrangements must as far as possible be in the form of agreements in terms of Section 57 of the Magistrate's Courts Act, (Act 32 of 1944) and as amended by the Jurisdiction of Regional Courts Amendment Act, (Act 32 of 2008) (hereinafter referred to the Section 57 Agreements).
- All debt repayment arrangements will be logged on the computer system to ensure maximum accessibility and to enable the effective administration of such repayments.
- Arrears of Councillors must be settled in full or arrangements to pay off such amounts, by means of salary deductions, may be entered into. This includes the seizure of bonuses or any other additional allowances (this paragraph must be read in conjunction with the relevant Sections of the Systems Act, (Act 32 of 2000)),
- The Stellenbosch Municipality is allowed to recover all arrears more than ninety days from municipal officials by means of salary deductions and proportionally from increases and/or the official's thirteenth cheque/performance bonus. In this regard, all temporary contract workers are also regarded as municipal officials.
- (i) No interest will be levied on outstanding amounts for which arranged agreements have been entered into.
- It is a preferable that a water demand management device and/or a prepaid electricity meter be installed when any arrangement is entered into,
- (k) Arrangements may only be concluded upon submission of the following documentation:
 - (i) Proof of identification;

(ii) Proof of Income;

(iii) Supporting documentation relating to expenses;

(iv) Three month Three-month bank statements and/or payslips; and/or

(v) Proof of legal occupancy; and/or

(vi) Any other documentation as may be requested by the Credit Control Section.

4. ADJUSTMENT OF DEPOSITS

Deposits may be increased to cover the additional risk as regulated in terms of the Municipality's By-Laws. Increases in deposits shall be utilised to cover the additional risk resulting from default_ing on payments.

5. FURTHER ACTIONS

- (a) Should arrangements not be made, or not be accepted or not be adhered to, services are discontinued or restricted; or pre-paid services are restricted, provided that a fair and equitable procedure, including reasonable notice of the intention to discontinue or limit is followed. Where legislation does not allow for the complete termination of services, the Credit Control Section will determine the appropriate minimum level of service provision where after, all amounts owing become due and must be paid in full before services are restored to full capacity.
- (b) Should amounts owed not be settled by the final date, i.e. after the date for payment set out in a final demand, such accounts and the relevant Section 57 Agreements, where applicable, will be handed over to the Municipality's Collection Attorneys for recovery and/or to consider instituting further legal action.
- (c) The Municipality shall at its own discretion and without limiting the measures provided for in the Municipality's By-Laws, be entitled to withhold or limit the supply of services until the total costs, penalties, other fees, tariffs and rates due and owing to the Municipality have been paid in full. This will include the restriction of supply of water or electricity to a debtor who is found guilty by the Municipality or any Court of Law;
 - (i) of fraud or theft of water and electricity,
 - (ii) any another criminal activity relating to the supply or unauthorised consumption of water and electricity, or,
 - (iii) if it is evident that fraud, theft or any other criminal activity has occurred relating to such supply or consumption.
- (d) Stellenbosch Municipality may consider an auxiliary levy on the purchase of pre-paid electricity to recover arrear debt,
- (e) Stellenbosch Municipality may consider black-listing consumers in cases where the consumer was handed over to institute legal proceedings.

6. NEW APPLICATIONS FOR SERVICES

6.1 No transfer of services from an owner to a tenant (Municipal property excluded) will be allowed. The status guo of contracts signed before 01 July 2011 will be maintained, provided

Direct bank deposits	Banking hours	Bank transfers
Personnel deductions	Office hours	Direct deductions from
		earnings
24 hour Utility shops at petrol stations	All hours	Cash, cheques, credit cards, debit cards
Itron Ontec Vending Agents	Trading hours	Cash, cheques

- The use of correct account references for electronic payments and/or direct deposits is a requirement to ensure correct allocation of payment and to avoid any penalties and admin costs. It is the responsibility of the consumer making the payment to ensure that the correct reference number is made known to the municipality.
- All payments by means of Electronic Funds Transfer (EFT) or payments via the facilities as approved must be made in time so as to reflect in the Municipality's bank account before close of business on the due date.

13. DISHONOURED PAYMENTS

- Receipts issued in respect of dishonoured cheques and ACB deductions must be written back upon receipt of such notices. Interest on arrears must be raised where applicable and administration costs be debited to debtors account. Debtors must be notified and debt recovery actions be instituted where necessary.
- 13.2 Should payments be dishonoured twice, the debtors system must be encoded not to accept cheques or debit order transactions of such a debtor and he/she must be informed thereof in writing.
- 13.3 If payments are dishonoured twice in a financial year, consumer deposits may be adjusted to mitigate increased financial risk,
